PROFESSIONAL SUMMARY

Python Full Stack Developer with hands-on experience building full stack web applications using Django, React, MySQL, HTML, and CSS. Skilled in developing backend systems, integrating frontend and backend components, and building responsive, database-driven applications with CRUD functionality and authentication. Currently exploring Generative AI concepts through AI agents, structured LLM applications, prompt engineering, and retrieval-based systems. Detail-oriented developer with strong problem-solving skills and interest in building practical, user-focused software.

SKILLS

Technical Skills

Python | JavaScript | C | HTML5 | CSS3 | Tailwind CSS | React JS | Django | REST API | MySQL | NumPy | Pandas | Matplotlib | Redux Toolkit | Redux Persist | Pydantic | Streamlit | Git | GitHub | VS Code | CRUD Operations | Authentication | Session Handling | Prompt Engineering | AI Agents | Structured LLM Applications | OpenAI API | n8n

Soft Skills

Problem Solving | Logical Thinking | Attention to Detail | Adaptability | Team Collaboration | Communication Skills

WORK EXPERIENCE

Python Full Stack Development + Gen Ai intern

Sep 2025 – Mar 2026

HACA, Calicut

- Built full stack web application features using Django, React, and MySQL.
- Developed backend modules, CRUD workflows, and data management features for web applications.
- Integrated frontend components with backend services and authentication-based access flows.
- Worked on AI-assisted workflow automation and gained hands-on exposure to Generative AI development tasks.

PROJECTS

SkillMap - [GitHub](#)

2026

- Built a role-based skill assessment web application to help users evaluate readiness for specific tech roles.
- Developed backend logic in Django to manage assessments, skill levels, roles, and user progress tracking.
- Designed a dynamic dashboard to display performance insights, readiness scores, and skill progression.
- Integrated MySQL database operations for storing assessment records, role mappings, and user data.
- Implemented CRUD functionality for managing assessments, skills, and progress-related records.
- Added user authentication and session-based access control for secure personalized usage.

My Wedding Planner - [GitHub](#) | [Live Demo](#)

2025

- Developed a web-based event planning application supporting CRUD operations for managing wedding events.
- Implemented Redux Persist for maintaining application state across sessions.
- Built form validation logic and budget tracking features for event management.
- Designed a responsive user interface using Tailwind CSS.

AI Agent Explorer - [GitHub](#)

2025

- Built an AI application demonstrating agent-based workflows using structured LLM outputs and external API integration.
- Implemented structured response handling using Pydantic for reliable data formatting and validation.
- Developed a recipe generation workflow and integrated web research capabilities through API-based tools.
- Created an interactive Streamlit interface for testing and exploring AI-driven workflows.

Community Complaint & Issue Reporting System - [GitHub](#)

2025

- CRUD-based complaint management system for submitting, tracking, and managing community issues with MySQL backend.
- Designed database tables for complaint data and user submissions with efficient storage and retrieval logic.

Election Vote Percentage Calculator - [GitHub](#)

2025

- Python data analysis application to process and analyse candidate vote data using Pandas and NumPy.
- Generated bar and pie chart visualizations using Matplotlib to present vote distribution and percentage statistics.

EDUCATION

Bachelor of Technology in Computer Science Engineering

2021 – 2025

APJ Abdul Kalam Technological University, Kerala

CERTIFICATIONS

Python Django Full Stack Development with Generative AI

Sep 2025 – Mar 2026

HACA

ADDITIONAL INFORMATION

Academic Project Lead

- Coordinated cross-functional student teams across multiple academic development projects, ensuring clear delegation, consistent communication, and on-time delivery.

NSS Volunteer

- Participated in and led team-based social outreach programs, developing strong communication, coordination, and organizational capabilities.

Languages Known

- Malayalam – Native
- English – Proficient
- Hindi – Proficient
